

RenewSys Patalganga Facility

The Growth Story

RenewSys has set up a state-of-the-art module manufacturing line for 1GW of PV Modules at Patalganga, Maharashtra. Located close to Mumbai and just 1.2 hours from the JNPT port, this facility will strengthen our customer service capabilities by reducing the delivery time lines. We continue to fine tune our product mix, keep up with the pace of our new product launches and thereby deliver what the customer needs tomorrow – today.

Our group – the Enpee Group – has come a long way, due to our firm belief in our core values, clear strategy and solid determination, supported by hard work. This approach has enabled RenewSys to emerge as a pioneer and market leader for PV components in a short span of five years.

We carry similar ambitions for the PV Module business as well. Our three key pillars, viz. using technology – based, quality – led manufacturing process, a strong financial foundation, and a way of life rooted in ‘Values’ has set RenewSys apart as an organization and strengthened our relationship with our customers, making us partners in their growth journey. Our values have led us to capture the major markets for CONSERV (EVA & POE Encapsulant), PRESERV (Backsheet), RESERV (PV Cell) & DESERV (PV Module) in India, Africa, Europe, UAE and USA. We have also taken steps to get vocal for local and thus contribute to the nation’s Aatmanirbhar Bharat goal.

MoU Signed - Magnetic Maharashtra

Name of the Event: Industries Dept. MoU Signing Ceremony in the Presence of Hon'ble Chief Minister Shri Uddhav Thackeray, at Sahyadri Guest House | December 22, 2020 | 3.30 pm

Attended by: Chandrakant Modak, Chief Financial Officer and Bhupendra Rawat, Head Business Development, RenewSys India Pvt. Ltd.

The state signed 25 fresh MoUs with investment commitments of INR 61,000 crore spanning 15 different sectors, with an estimated potential of creating 2.70 lakh new jobs in the state, under the 'Magnetic Maharashtra 2.0'.

"With this, Magnetic Maharashtra 2.0 bolsters the message that Maharashtra - the torchbearer of India's growth - is now 'Open for Business', Mr. Thackeray asserted.

New Website

We are very excited to announce the launch of our newly designed website that is faster, easier to navigate, and more user-friendly.

It provides visitors an easier way to learn about our services. Visit us at www.renewsysworld.com

A GW Of Reasons To Celebrate!

RenewSys celebrated the dispatch of **1 GW+** of PV Module shipments from our Hyderabad Facility.

With customers in over 40 countries, our reach continues to grow as we help people and communities **#switchtosolar**.

We want to thank each of you for partnering with us in this growth story and look forward to working together to achieve new heights!

RenewSys Learns

Safety is a necessity for all the departments of any company. So as an extension we at RenewSys apply safety oriented practices across departments such as R&D, Storage, Logistics etc.

We have protocols involving activities such as routine fire drills so that people know how to respond to emergencies in the plant. We believe in empowering our employees with the right knowledge about the safe usage of equipment and therefore conduct regular trainings for our Team.

On the occasion of National Safety Day a week's long celebrations was conducted at RenewSys Hyderabad and Bengaluru Facility.

Team RenewSys Hyderabad taking the Safety Pledge

Team RenewSys Bengaluru taking the Safety Pledge

Safety is the state of mind!

Project Snapshot

278 KW: Ixopo, KZN, South Africa

275 KW: Rakholi, Silvassa, India

50 KW: Remote rural schools, Botswana

Customers First!

RenewSys hosted a Webinar on PID in Solar PV Modules and the session was well attended and we received lots of encouragement. We hope to conduct more of these in the months to come as well.

The webinar was attended by people from countries across the globe like USA, Mexico, France, India, etc.
